## LATIN AMERICAN AREA SEMINAR

The Latin American Area Seminar is designed to provide Agency officers with both a broader perspective on area problems and a deeper insight into how such problems may affect U.S. interests and future requirements for intelligence on the area. It is organized to enable participants to examine Latin American problems from a variety of viewpoints, including those of Latin Americans, academicians, and U.S. intelligence analysts. Reading materials, lectures, and panel discussions are designed to stimulate participation by members and to facilitate sharing of experiences and ideas. In addition, each member will be asked to prepare a report on a particular area or country problem for presentation during the final sessions of the seminar.
